114 presentations delivered

18 publications authored

4 courses developed

Designed and delivered courses and trainings conducive to multiple environments including:

Virtual / Online | On-site | Formal Classroom | Live In-Person Conference

INSTRUCTIONAL EXPERIENCE

Ashworth College; Norcross, GA (January 2018 – Present)

Career Instructor Online – Open Enrollment Model

Evaluate writing assignments of students enrolled in Dog Obedience Trainer (DTV) and Veterinary Assistant (CCV) Program. Use Brightspace D2L LMS Platform to grade ~50 online student submissions across the US and Canada. Work closely with program administrators to address student questions related to elements of the course or program.

- ✓ Earned 5 out of 5 rating for communication and reaching faculty expectations; received 4.6 out of 5 in assessing student learning on annual evaluation.
- ✓ Selected to teach ambitious high school students basic concepts in working at a veterinary practice; courses cover techniques in restraining patients, dispensing medication and writing medical papers.
- ✓ Joined online faculty resource center to gain knowledge and remain abreast of current teaching trends.

National Veterinary Associates; Agoura Hills, CA (June 2015 – Present)

Facilitator, Veterinary Technician In-Clinic Training

Hired to provide hands-on training courses on veterinary dental skills and radiology for staff members at newly acquired clinics to drive the integration of standardized procedures and practices. Conduct hands-on vet labs for American Animal Hospital Association.

- ✓ Delivered training to 260+ participants in 93 clinics across 20 states.
- ✓ Designed and developed AAVSB RACE approved course material.
- ✓ Leveraged expertise and industry knowledge to create 2 manuals used in formal training courses.
- ✓ Created and led trainings qualified for continuing education credit granted through American Association of Veterinary State Boards.

VetMedTeam; Virtual (March 2013 – Present)

Course Developer and Instructor

Develop and provide instruction for 2 online veterinary dentistry courses, utilizing Blackboard Open LMS to deliver online coursework. Monitor student progression and assess coursework to ensure understanding of material.

- ✓ Edited textbook and developed course content for Polishing Up Your Dental Basics and Getting to the Root of the Dental Problem.
- ✓ Recognized as subject matter expert for the creation of new dentistry courses.
- ✓ Appointed to review questions used in Veterinary Technician National Exam preparatory course.

Midmark Animal Health; Dayton, OH *(November 2012 – Present)*

Trainer - Dental Training and Education Network

Travel across Central and Northern Florida region to train veterinary clinic staff members on skills, equipment and software. Facilitate 2 courses up to 4 times per month: Cleaning Probing and Charting Best Practices Lab and Dental Radiology Positioning Lab.

- ✓ Single-handedly designed manuals and job aids provided to course participants.
- ✓ Provide post-training support to clinics with questions or issues with equipment functionality.

Webster Veterinary/Patterson Veterinary Supply; Devens, MA *(March 2012 – Present)*

Dentistry Trainer

Present in-person dentistry lectures to veterinarians and staff members covering performing an oral exam, charting the oral cavity, X-ray positioning training and digital imaging software training on the Schick system.

St. Petersburg College; St. Petersburg, FL *(January 2005 – Present)*

Adjunct Faculty – Veterinary Technology Bachelor and Associate Program

Lead online instruction to 10 – 20 students using MyCourses Brightspace D2L LMS platform.

- ✓ Developed courses in Dental Techniques in Veterinary Technology, Introduction to Dental Techniques, Animal Nursing Medicine Lab II and Dental Radiology Lab.

Parkland College; Champaign, IL *(August 2001 – December 2001)*

Teaching Assistant – Small Animal Nursing

Supervised students as they practiced small animal nursing skills in laboratory setting. Provided 1-on-1 support and administered classroom assessments.

- ✓ Worked alongside course instructor to measure student success, compile results and enhance curriculum.

EARLY CAREER

Previously served as Veterinary Technician/Nurse at Northgate Pet Clinic, Highland Animal Hospital and Tampa Bay Veterinary Dentistry.
